

# SCOTT BOWDEN

Building Designer, QBCC 15226855

Registered Building Designer specialising in private residential and multi-residential projects, with varying experience among other building types. Working under the supervision of registered Architects at Raunik Design Group for 7 years and serving Bunnings Warehouse's trade department for over 9 years, provided Scott with a foundation and understanding of the architecture and construction industries. Being a past employee of Graphisoft Australia and an ArchiCAD user for more than 10 years allows Scott to be proficient and accurate in his documentation and graphic communications. Now a sole practitioner, Scott is a member of the Building Designer's Association of Australia, although aspires to progress his qualifications by applying for the NPRA Architects Accreditation, a pathway toward being an architect, having studied architecture in university.
